

“If you invest in beauty, it will remain with you all the days of your life.” - Frank Lloyd Wright

“When my friend walked in I couldn’t stop looking at her face. She was radiant and had an incredible smile. After staring at her for a few minutes she then told me she had a facelift with Dr. Kornstein. I had her tell me the whole story. It was exactly what I wanted to hear. A few months later I flew to New York to meet with Dr. Kornstein.”

“I am a California girl and had lots of sun exposure and damage in my early years. Fat grafting along with my facelift was one of the BEST decisions I have ever made! It looks incredibly natural and soft while making me look and feel much younger. My daughter hates when people say...‘this is your mother?’”

“He saw me in a more holistic way and talked to me about his impressions. His perspective was more far sighted and the surgery he performed was both dramatic and subtle. Dramatic because I look like a more beautiful, refined younger woman and subtle because nobody who looks at me thinks I did work. I instantly trusted Dr. Kornstein because he didn’t tell me what I wanted to hear. In my opinion he has the precision of a great surgeon and the point of view of a talented artist and architect.”

“Friends or colleagues frequently tell me how amazingly well I look, how well rested I seem and how much retirement agrees with me; new acquaintances are amazed to learn that I turned 60. Yet no one has ever asked whether I had surgery because everything looks completely natural.”

....artistry speaks for itself.
